ENUMERATOR PLEASE NOTE: DO NOT interview husband in the presence of the wife. For all questions in this survey, the husband CANNOT ask his wife what the answer is. The survey is meant to test the husband's knowledge of his wife. DO NOT prompt with any options for any question in this survey, unless the word "Prompt" is specified.

There is no "Don't know" option in this section. Even if the husband does not know the answer, you need to probe to get a best guess.

REMEMBER that there is a difference between “Prompting”, “Probing” and “Leading question”.

CONSENT FORM

Assalamu Alaikum/Adab,

My name is _____. I have come from Mitra & Associates, Dhaka. Our organization is conducting a survey on behalf of the Abdul Latif Jameel Poverty Action Lab (J-PAL) at the Massachusetts Institute of Technology and Innovations for Poverty Action (IPA), two U.S.-based non-profit organizations dedicated to finding innovative solutions to development issues in various countries. The purpose of the study is to learn about the education, health, marriage, and economic activity of young women and adolescent girls.

A few years ago we interviewed your wife and her household. . If you agree, we would now like to ask similar questions to you and your wife. There is no risk for you if you decide to participate in the study. There are no benefits either. I am now going to tell you a little bit more about the survey and ask if you would be willing to participate.

Participating in this survey is totally up to your wish and you have all the freedom to not participate in it. If you want, you can stop the interview at any time. You will neither lose nor be gain from participating in this survey.

If you volunteer to participate in this survey, you will be asked about the following topics:

- Information on educational status and economic activity, pertaining to you, your wife and the household
- Information on attitude of the household towards married girls
- Information on health and family planning
- Contact information for this household as well as contact information for your wife if she is currently living elsewhere.
- The interview will last approximately 45 mins with you (and 1-1.5 hours with your wife). It will include some sensitive questions about your marriage.

Your family or the people of your area will not be inconvenienced in any way from your participation.

The information provided by you will remain strictly confidential. Your name will never be published in any report. The published result of the survey will be the compilation of information of thousands of people and the information given by any specific person cannot be identified from there. In order to ensure that this survey is being administered appropriately, a short audio recording may be collected during your interview. The recording will be securely reviewed internally and deleted within 30 days of collection. No one outside of our quality control team will access the recording.

Do you have any questions? You can give your verbal consent for your participation in this survey.

“I understand the procedures described above. My questions have been answered to my satisfaction, and I agree to participate in this study.”

SUBJECT GAVE VERBAL AGREEMENT FOR THEIR PARTICIPATION
